# Vishweswar Mohapatra

Deep Learning Intern at iNeuron.ai

Vadodara

## Summary

Hello World, This is Vishweswar Mohapatra and some brief intro i am a geek enthusiastic and a practical learner. Currently doing more and more projects on latest Web Frameworks like Angular and React and seeking more and more Hackathon so that can push myself further in developing projects in speed-run.

Also I am Founder of the Freelancing team called WeBlaze in which we provide every Web development services and graphic designing.

I am very good at C++, Python, Web development as I love coding.

Also trying hands on Flutter and Machine Learning to explore more and more how they work.

As I am a footballer played professional football for clubs and was part of national team in the tournaments I have a good quality of team work and positive spirit to do work.

---
