Software Development

Mohammed Shahnawaz Hungund

Data Science Intern at Technocolabs | data analysis | aspiring
python software developer |Django
Karnataka

Summary

Ever since I was in high school, Curiosity of how electronics gadgets like calculator, mobile phones work leads me to think about the workflow of these devices and got to know about the magic behind these devices can be done by using machine languages. leads me to join the computer science branch, ever since writing my first "hello world" program in C to performing my first mini project of a Database management system using Python Django framework. I have been obsessed with the idea of using software to solve problems. I believe in the power of technology to transform and improve the lives of people around the world, to make a better society.

Experience

Technocolabs
Data Science Intern
August 2020 - Present (1 month)
Indore, Madhya Pradesh, India

Education

Rural Engineering College, HULKOTI
Bachelor of Engineering - BE, Computer Science · (2017 - 2021)

nehru college hubli
· (2015 - 2017)
