About Me:
#Interned at Microsoft and Google's Nest Labs while in college
#Ran a DJ business in high-school. Ran a music-tech startup in college
Started my career as a Software Engineer on Facebook's Growth team
#YOLO'ed to join SafeGraph as their first marketing & growth hire
Grew SafeGraph's Data-as-a-Service business, evangelized for all things data
#✍#   #Writing about tech careers, data science, & startups via my monthly email newsletter
#Co-author of the upcoming book: Ace the Data Science Interview

Experience

Ace The Data Science Interview
Co-Author
July 2020 - Present (2 months)
San Francisco Bay Area

189 Data Science Interview Questions publishing this September! Solve some sneak-peak questions with us on Instagram (https://www.instagram.com/acedatascienceinterviews/) and get free chapters through my monthly email newsletter (http://eepurl.com/gaSjD5)

SafeGraph
Growth
September 2018 - July 2020 (1 year 11 months)
San Francisco Bay Area

1st Marketing & Growth hire at SafeGraph - a geospatial data company that offers really clean, well-structured datasets to Data Science and Machine Learning teams.
$20M raised from Peter Thiel, Naval Ravikant, & more.

Facebook
Software Engineer - Growth Team
August 2017 - September 2018 (1 year 2 months)
San Francisco Bay Area

In the Core Growth org, worked on the New Person Experience team. Created features and ran A/B tests which improved the Facebook Android app's new-user activation & retention metrics. Mostly did Android development (Java) with some back-end work (PHP/Hack).

Google
Software Engineer - Data Infrastructure Team
2016 - 2016 (less than a year)
San Francisco Bay Area

Intern at Google's Nest Labs (home automation unit), on their Data Infrastructure Team.
Worked with Scala, Python, Spark, and GCP.

Microsoft
Software Engineer
2015 - 2015 (less than a year)
Seattle

Intern on the Payment Services Team

Rapstock.io
Co-Founder
2014 - 2015 (1 year)

RapStock.io is the Virtual Stock Market for Rappers. Think fantasy football meets hip hop music. You draft artists to your virtual music label, & are rewarded when the artists blow up in real life (tracked via Spotify plays & Billboards data).

Started it in my college dorm room and grew it to over 2,000 Monthly Active Users who made over 14,000 in-game investments in artists.

Won 2nd place and $1500 at the Darden Effectual De-Risking Competition. Video Interview: https://www.youtube.com/watch?v=pNJl2YioTrc

DJ Lil'Singh
Owner & Mobile DJ
2012 - 2013 (1 year)

Performed at 25 paid events, like Sweet 16's, Grad Parties, & School dances back in Northern Virginia. Currently mixing Bollywood, Hip Hop, and EDM (Trap) at different SF Clubs & Bars & House Parties. Instagram: @DJLilSingh
